

## Water Service Line Survey

The Rq o rvqp" Ncmgu" Dqtqwi j Owpkckrcn" Wvknkvkgn" Cwvjqtkv{ \*RNOWC+ is updating information on our inventory for existing water service lines in our water distribution system. To update our records, *we're asking for your help* to identify what type material your service is, by having you conduct a visual inspection of the service pipe where it enters your home or business at the water meter, and to furnish the information to us by completing an on-line Water Service Inspection Form.

You can access the Form by your cell phone/tablet using the below QR Code. You can also enter the following link: [WWSYDUEDVEU](https://www.ramseynj.com/DocumentCenter/View/4141/Borough-of-Ramsey) into your cellphone, tablet, or computer's browser address bar. We recommend using a cell phone or tablet to complete the Inspection Form since you'll be asked to take a photo of your water service line and water meter. Please complete the survey within one week of receiving this card.

If you feel that you cannot perform the survey, the RNOWC can have someone come out to your home or business to conduct the survey. If you need help, please contact Mr. Dknn{" Fqv{, Qrgtcvkqpu" Ocpcigt at (973) 839-3044 to schedule an appointment.

For more information about the PLMUA's water service line inventory, this water service inspection survey, and the health effects of lead in drinking water, please visit our website at:
